- Hamburger menu contents:
  - **Host tools**
    - **Timer**
      - Toggle visible/invisible
      - Set default time
    - **Answer key**
      - View answer key
      - Download answer key
    - **Display**
      - Enable/disable external display
      - Show/hide external display preview window
      - Show/hide external display controls (including buttons for pushing questions, images, etc to display)
    - **Show/hide all answers**
  - **Show settings**
    Host can see and update:
    - Location
    - Host name
    - Cohost name (sometimes there won't be a cohost)
    - Total # of games to be played
    - Start time of each game
  - **Scoring options**
    Host can see and update:
    - Scoring mode (pub, pooled - static, or pooled - adaptive)
    - # of pub points per question
    - # of points in the pool for static
    - # of points contributed by each team for adaptive
  - **Prizes**
    Host can see and update:
    - Prize provider (which may on occasion be different than the location)
    - Prize details (# of prizes and specifics of each - for example, 1st place = $25 gift certificate; 2nd place = $10 gift certificate; 3rd place = 2 drink tokens)
- General notes
  - The top white bar that contains the TriviaVanguard logo should always be at the top of the screen, I think?
  - I do want a "Return to top" button at the bottom of the screen
  - I'm not sure where the show selector should go
  - I'm not sure where hosts should access the interfaces for entering scores and viewing final results
  - I'm also not sure how, exactly, I want the rounds to appear. I am feeling really gun-shy after the misadventures with trying out the collapsible rounds. 🙁
